

Technology Integration Lesson

Plainville Community Schools

LESSON TITLE: How We Get to School

GRADE: First

OBJECTIVE: Students will use Graph Club to create a graph showing how their class gets to school each day.

CURRICULUM CONNECTION:

2.1 reads and interprets tables, charts and graphs

MATERIALS: Graph Club template, Graph Club, computer, printer, SmartBoard if available to demonstrate

PROCEDURE: (Read to students)

Today we're going to use the Graph Club to show how we all get to school each day..

1. Find your first grade folder on the Dock. Click on it one time.
2. Find the folder that says Technology Templates. Double click on it.
3. Find the document that says 1-how we get to school. Double click on it.
4. We can see that we'll be graphing whether students come to school on the bus, in a car, on their bike, or if they walk. (Note: At this point teacher should survey the class and write down the totals.)
5. ____ people come to school on the bus. Click one time on the bus at the top and drag it to the bus column. Do this for each person who takes the bus to school.
6. ____ people come to school in a car. Click one time on the car at the top and drag it to the car column. Do this for each person who takes the car to school.
7. ____ people come to school on their bike. Click one time on the bike at the top and drag it to the bike column. Do this for each person who rides their bike to school.
8. ____ people walk to school. Click one time on the foot at the top and drag it to the foot (walking) column. Do this for each person who walks to school.
--- Discuss the graph results with your students ---
9. Now it's time print. Click on File, select print.
10. A box comes up for your name. Type your name in the name box and click print.
11. Click print again and it will go to the printer.

EVALUATION: Teacher observation or teacher created rubric.

EXTENSION: After printing out document students use their pencil to write a sentence or two about the survey results.
