

Technology Integration Lesson Plainville Community Schools

LESSON TITLE: Branches of Government

GRADE: Fifth

DIRECTIONS: Use Kidspiration to tell about the three branches of government.

1. Change the main idea symbol to a rectangle.
2. Move the main idea symbol to the top of the page.
3. Type "Branches of Government" in the main idea.
4. Use the create linked symbol button to add three symbols down from main idea.
5. In each symbol type the name of one of the branches of government.
6. Use the create linked symbol button to add a symbol below the name of each branch of government. In this symbol type who the members are in this branch of government.
7. Use the create linked symbol button to add a symbol below the members. In this symbol describe how the members of that governmental branch got their job.
8. Use the create linked symbol button to add a symbol below the job symbols. In this symbol describe how the powers within that branch of government.
9. Change the line and fill color of the symbols of each branch so that the symbols for each branch are a unique color (ex: branch 1 symbols are all light blue with a dark blue line).
10. Proofread your document.
11. Click the name button to add your name to the document.
12. Print your document.
13. Save your document to the location your teacher tells you to use.
